DETAILED ACTION

Response to Amendment

1. The Examiner has carefully considered Applicant's amendments and accompanying remarks dated 1/10/06 in response to the nonfinal office action dated 08/10/05. Applicant's amendments to the specification have been entered. Applicant's amendment to the claim 1 has also been entered. At this time in the prosecution the only pending claims are 1-13. The objection made over the trademarks in paragraph 1 of the previous office action is withdrawn.

Response to Arguments

2. Applicant's arguments filed 01/10/06 have been fully considered but they are not persuasive. Applicant's only traversal is that the coating used by the cited art is not a film, and Applicant attempts to clarify the difference between a film and coating by describing the different scenarios, which is appreciated. However, it is the position of the Examiner that Applicant's specification does not define either a coating or a film that is being traversed, and therefore the usual industry know meaning of film and coatings are used. (In the most laymen of definitions such as that found in Merriam Webster's Dictionary, they define "film" as a thin covering or coating and "coating" as something that covers, both of which are met by the layer of cited art. In fact, If Applicant is choosing to define these terms then the specification must reflect the same, and/or be shown via an affidavit. Additionally, The arguments of counsel cannot take the place of evidence. *In re De Blauwe*, 736 F.2d 699, 705, 222 USPQ 191, 196 (Fed. Cir. 1984). Further, with post processing steps (evaporation of the solvent or heat pressing through rollers) or once the final product has solidified, a skilled artisan would not be able to tell the difference if a film or a coating was applied. Furthermore, although applicant is calling this layer a film it really is a coating, and not a

preformed film. Thus, the rejection made in paragraphs 2-3 of the previous office action are maintained and this office action is made final.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 6074738 issued to von Fragstein et al as set forth in previous office action at paragraphs 2-3.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
